doane paper®

Established in 2005 Doane Paper is an unconventional stationery goods effort centered around the idea of combining grid+lines onto a single sheet of paper.

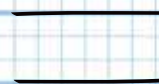

**MULTI
PURPOSE
PAPER**

GRID

PLUS

LINES

20# Heavy-weight White Paper Works Well with Gel Pens

"The grid+lines design allows [students] to record not only their observations, but also create organized data tables and accurate graphs."

~Chemistry Teacher

"The grid+lines concept is genius for us because we spend half our time writing and half drawing."

~Jedd Rose, Co-Founder of TOPO Designs

"[Grids+lines] lets me switch between scientific work, diagrams, long-form text, and everything else, all on the same page."

~PhD Student, Cornell University

Thanks to a loyal customer buying base that has fostered the brand, Doane Paper has grown; slowly and organically from a stationery pattern concept into a premium physical stationery line. Doane Paper is routinely shipped directly to individual college students and to college science/chemistry departments.
